About Familipay

Familipay was founded by attorneys for their clients and other attorneys, after seeing in their own practices the difficulties facing parties who have to share payments for bills and pay support through court or state bureaucratic systems

Familipay always helps

Familipay was founded to help attorneys help their clients during mediation, settlement, pendente lite or postjudgment continued engagement.

Alternative to bureaucracy

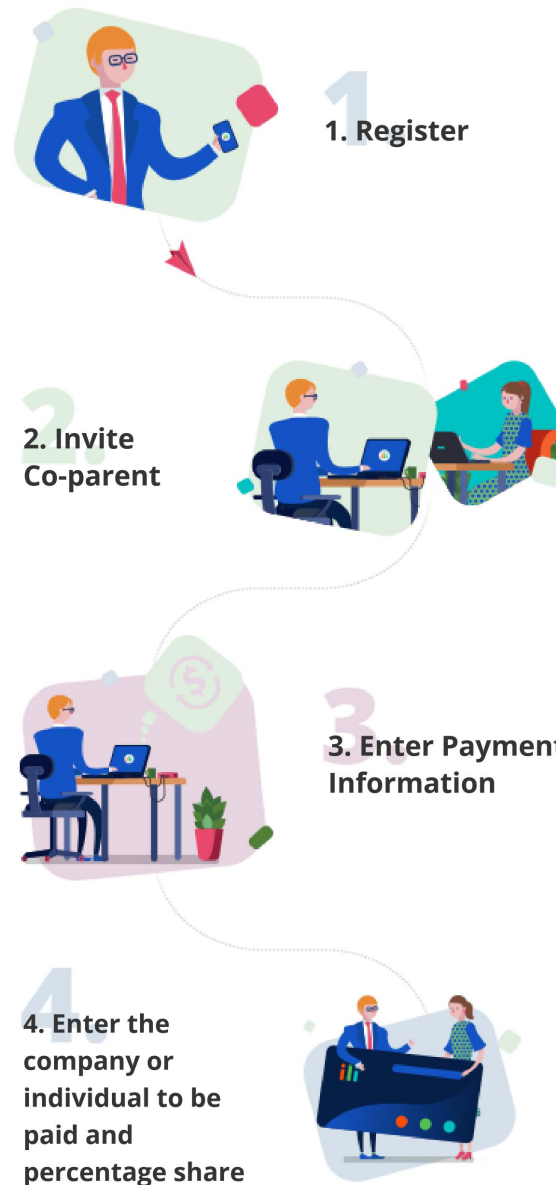

Familipay was founded to give parties an alternative to paying through bureaucratic court or state agencies.

Better communication

Familipay was founded to help parties avoid conflict and litigation through a simplified, transparent platform that allows for verification of payment history and communications. There is no other platform like it.
